

ETFs

Powered by State Street

We provide Exchange Traded Fund (ETF) services for clients of all sizes, needs and goals. We are committed to supporting your ETF ambitions every step of the way.

Expert Guidance

Navigate with confidence the complexities of the evolving ETF landscape and tap into new methodologies as they occur with our market-leading¹ experience and high-touch consultancy model.

We were the first ETF provider to support each of the semi-transparent active ETF models and are servicing several global cryptocurrency ETF launches.

Connectivity

Engage easily and efficiently with the ETF ecosystem by leveraging our deep relationships with major industry bodies across the globe.

Innovation

Trust that the tools and technology you access are designed and built to fulfil your pressing needs, from automation to driving efficiency and knowledge-building.

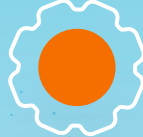

Global Service Model

Traverse every ETF region and scale your offerings efficiently and compliantly with the only provider that serves all major ETF markets.¹

Trusted Partnership

Collaborate with the premier thought leader and service provider of ETFs and experience our proven consultative approach and integrated global servicing capability.

State Street services 2,568 ETFs with US\$6,105B in assets under management.²

Our ETF experts are always available

to engage with new, existing and potential ETF issuers who have questions about the ETF market. Get in touch.
